

Vinon is committed to obtaining the « sustainable development label »

Développement durable, le sport s'engage[®]

This label certifies and promotes the approach of the organizers of sports events, events related to sport, training courses related to sport and sustainable development/sport development/social responsibility of sports organizations (RSO) who are committed to developing and implementing actions that respect environmental, social, economic, ethical and governance criteria for ethical and governance criteria for eco-responsible events.

By granting the Label, the Olympic and Sports Movement recognizes - for the public, the participants and the partners - that the applicant is developing its project in accordance with the and partners - that the applicant is developing its project in accordance with a set of specifications that place sustainable development/social responsibility at the heart of its action.

For the project leader, it is a matter of being part of a continuous improvement process eco-responsible. For the Olympic and Sports Movement, it is an instrument of progress in the service of a sport and a sustainable society.

The French Gliding Federation is committed to the development of a sustainable development strategy. It is an extension of the actions developed by the gliding clubs. These actions aim to optimize the means at our disposal in order to perpetuate gliding and to contribute to the preservation of our planet and our beautiful playground.

The Gliding club of Vinon (Association Aéronautique Verdon Alpilles) is involved in the following projects:

- ECO-RESPONSIBLE GOVERNANCE
- MANAGEMENT AND STAKEHOLDER AWARENESS
- RESPECT AND INVOLVEMENT OF PARTICIPANTS AND SPECTATORS
- ENVIRONMENTAL PROTECTION
- PROMOTION OF ETHICAL VALUES
